To Whom It May Concern:

We have been working with Signature Plating for nearly 4 years with all our aircraft plating requirements and we couldn't be happier with there finished product and customer service. Signature Plating is not only able to meet our demand for a high quality finish but also our need for a quick turnaround. I have lost count of the number of times I needed to have something plated AOG at the end of a project and had Signature Plating come through for us.

Some aircraft that we have completed, in which, Signature Plating has been the sole vendor for plating include: Challenger's, Gulfstream's, Falcon 50 & 900's, Hawker's, Learjet's, Executive Helicopters, and CRJ 'ExecLiner' conversions. I have nothing but confidence in Signature Plating's abilities and Flying Colours is looking forward to a long term relationship with them.

Best Regards
