Signature Plating announces Creative Design Partner – Nikki Gledhill CEO MBG International Design

Signature Plating of Cibolo Texas announces its partnership with Nikki Gledhill CEO and Creative Director of MBG International Design. Mrs. Gledhill is an accomplished industry professional with a stellar reputation for Design and Project Management. She will bring to Signature Plating a designer's eye to consult with customers to define exact metal finishing requirements.

Mrs. Gledhill started her career in the high-end luxury market right after graduation by accepting a position at an aircraft interior design and modification center as an Interior Designer. Mrs. Gledhill worked her way up to Senior Interior Designer where she was responsible for decorative styling for all in-house design projects. While working at the aircraft design and modification center, Mrs. Gledhill traveled the world meeting with top executives, head of state customers, and vendors; and through those travels Mrs. Gledhill has gained extensive knowledge of high-end luxury materials.

Those travels were the taste Nikki needed to put her passion for design and owning her own company into plan when creating MBG International Design, LLC. in 2009. During her transition to building her own company, Nikki was the creative and business development manager for Signature Plating. Her knowledge of decorative finishes is first hand and make her an expert resource for any customer. "We could not be more excited to have Nikki work alongside us as we grow our business into new markets", says Zane Leake Vice President-Sales. "We are honored to have Nikki's expertise available to not only Signature Plating but also to our customers. There are many new programs and markets that Nikki will make a significant and meaningful impact going forward".

MBG International Design has delivered projects on Boeing BBJ, BBJ Max, B737, B777, Airbus A340-500, A340-600, A320, ACJ 330-200, and Gulfstream SP aircraft.

"MBG International Design is committed to giving each client the utmost attention to design, details, project management and customer service", says Nikki Gledhill. "We strive to provide the most comprehensive, thought-out design with no stone left unturned when reaching final designs and selections. I look forward to supporting Signature Plating with their existing and future programs. This partnership will ensure that the customers requests are heard and their vision delivered".
